Moving from the table and home garden to the town, city, and suburbs, Food and Urbanism explores the connections between food and place in past and present design practices. The book also looks to future methods for extending the 'gastronomic' possibilities of urban space. Food and Urbanism, by Susan Parham, explores the interconnections between food and cities using the lens of urbanism. She analyses how transforming spaces of food and cities contributes to convivial and sustainable living, and may affect these attributes in a largely urbanized future.

Food and urbanism: the convivial city and a sustainable future. [Susan Parham] -- "Cities are now home to over fifty per cent of the world's population, but the contribution of .

In recent years, city planners, and economists in particular, have showed a growing interest in quantifying the relationship between food and globalised cities (Barton & Tsourou, Barton, H., & Tsourou, C. (). Healthy urban planning. London and New York: Routledge.
