Psychology careers run the gamut from industrial psychologist to neuropsychologist. Regardless of the specialty chosen, these careers require college degrees, and in many cases graduate studies. Find out about psychology careers, including options available, licensing and certification, and education requirements. With a four-year bachelors degree, a person seeking a career in educational psychology or teaching and learning psychology often begins with a position that becomes a pathway job to more education and a job with more responsibility. Psychology is the scientific study of people, the mind and behavior. While some psychologists choose to focus on research, others choose to focus their careers on applied psychology and working directly with people and communities.

The psychology of learning focuses on a range of topics related to how people learn and interact with their environments. One of the first thinkers to study how learning influences behavior was the psychologist John B. Watson who suggested that all behaviors are a result of the learning process.
